ACCESS COVERS

A COVER FOR ALL APPLICATIONS

6 sizes and 6 depths to suit most applications

HIDE Access Covers are designed to conceal service points in your outdoor areas. Allowing the cover to blend seamlessly into your selected surface.

HIDE Access Covers are available in a selection of sizes and depths to suit your inlay material.

Access covers conceal entry to most external service points:

- IO & Bolted trap screw (BTS)
- Water table pipe
- Water and balance tanks
- Taps and irrigation
- Valves and meters
- Electrical junction box

Tip: Discuss HIDE installation at the early stages of your design.

HIDE is specified for install in pedestrian areas.

DRAIN COVERS

HIDE Drain covers allow for your chosen landscape material to seamlessly conceal the drain access, resulting in a visually appealing and discreet service cover.

HIDE Drain Cover Kits are designed to allow water to flow from outdoor patio areas providing long term durability and improved visual appeal.

Consult your drain layer for site water flow and outlet suitability.

HIDE is specified for install in pedestrian areas.

STUNNING RESULTS

CONCRETE COVERS

WET-POUR READY

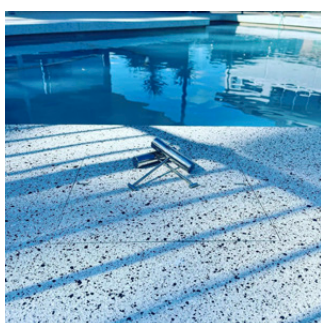

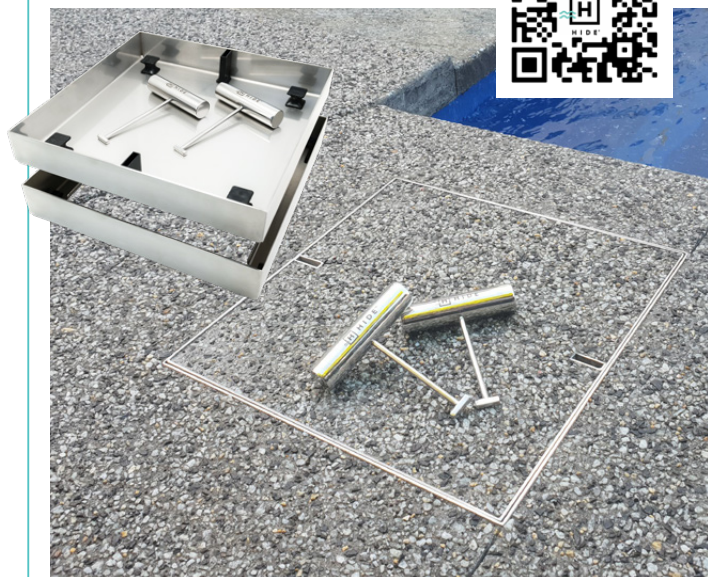

All kits at depths 1.6" to 2.5" are suitable for concrete wet-pour. These kits do contain a concrete conversion pack with snap in components and instructions.

The HIDE Concrete Cover with specially designed Edge Protector, provide the perfect solution for a concrete finish.

The cover is filled and finished at the same time as the pool surrounds. This ensures the lid perfectly matches the selected surface finish in texture and color.

If you are finishing your landscape in a decorative concrete, the HIDE Concrete Skimmer Cover is the only product for you!

Steer clear of the pitfalls associated with hazardous plastic and fragile loose stone covers. These suboptimal choices not only pose safety risks but also lead to expensive follow-up services and challenging replacements. Over time, sun-bleached stones make it impossible to achieve a perfect match, undermining the aesthetic cohesion of your outdoor space.

Opt for HIDE Covers to ensure safety and durability. Our covers wrap your chosen inlay in 2mm thick, marine-grade 316 stainless steel on five sides, offering unparalleled protection. Unlike traditional skimmer lid options that come with numerous quality and safety concerns, HIDE Covers meet and exceed relevant Pool Safety Standards, providing peace of mind for both homeowners and contractors.

CARE & MAINTENANCE & SAFE OPERATION

- Stainless Steel requires cleaning.
- Always keep acid away from all stainless steel.
- 10-Year Warranty

INSTALLATION

HIDE Covers seamlessly integrate into both new and refurbished landscapes. Designed with simplicity in mind, they ensure a straightforward and cost-effective installation process that can be completed on-site by any contractor.

Each kit comes complete with everything needed. Simply incorporate your selected inlay material, aligning patterns across the lid, for a cohesive and elegant look.
